WAKEKITE

THE SUPERFLY™ SERIES 9.0 AND 5.5

FEATURES

- Combines kite boarding with wakeboarding and water skiing to create a new big-air experience behind the boat
- Provides longer duration jumps and softer, “reduced-gravity” landings
- Rider controls the kite flight and is in control throughout the ride
- Designed for solid intermediate to advanced riders
- With more time in the air, riders can invent new tricks never before possible
- The Superfly 9.0 and 5.5 packages come complete with everything you need to get started, including: the patent pending WakeKite carbon fiber handle, all necessary lines, the inflatable kite, pump w/PSI gauge, User Manual and more.

SAFETY

- Multiple safety features are designed into the Superfly 9.0 and 5.5
- Shackle Release - In boat, to release main towline from towboat
- Handle Release - When rider lets go, the handle disconnects automatically from the towline
- Kite Line Releases - If the kite is overloaded, the kite and kite lines will disconnect from the handle (and boat) as one or both kite line releases are triggered. Kite Line Releases are re-loadable.
- Kite is easy to get up and ride with, however, a strong learning curve prevents new riders from catching too much air
- Altering line lengths reduces air-catching ability
- Higher boat speeds (beyond recommended 18-24 MPH) reduce edging and ability for jump approach

RIDING & PULLING OPTIONS

- Innovative, inflatable kite design to be used with a wakeboard, combo/wakeskis, slalom water skis and more
- Kite can be pulled effectively with nearly any kind of boat, even a PWC!
- No tower is necessary and small wakes still provide a great opportunity for air!

SUPERFLY 5.5 PACKAGE

FEATURES:

- Smaller-sized kite (5.5 square meters of material) designed to provide less lift and lower arm fatigue
- Works with riders of lighter weight (85lbs. and up), yet still provides a great ride to full-sized adults looking for a bit less lift than the 9.0
- Requires solid intermediate to advanced riding skills on surface craft of choice (wakeboard, skis, etc..)
- Riders over 135lbs. may graduate to the 9.0 for great air after mastering this smaller kites' steering technique
- Set for release in early November 2008

KITE FABRIC:

- Inflatable leading edge and struts constructed of heavyweight Dacron®
- Kite canopy constructed of rip-stop nylon

STEERING HANDLE AND LINES:

- Stainless steel release shackle at boat
- Spectra tow line with tow ball
- Carbon fiber steering handle with Release ball (connects to tow ball)
- Color-coded, foam-encased spectra kite lines sheathed in PVC
- 13'6" kite steering lines connect to kite via "larks head" knots
- Color-coded power settings for greater or less lift

PACKAGE EXTRAS:

- Pump w/PSI gauge
- Gear bag with backpack straps and front zipper pouch
- User Manual

SUPERFLY 5.5 PACKAGE

SUPERFLY 9.0 PACKAGE**FEATURES:**

- Full-sized kite (9.0 square meters of material) designed to provide greater air (vs. the Superfly 5.5) and a more thrilling ride
- Recommended for riders 135lbs. or higher
- Requires solid intermediate to advanced riding skills on surface craft of choice (wakeboard, combo/wakeskis, slalom ski, etc.)
- Currently in stock and ready for immediate shipping

KITE FABRIC :

- Inflatable leading edge and struts constructed of heavyweight Dacron®
- Kite canopy constructed of heavyweight Dacron®

STEERING HANDLE AND LINES:

- Stainless steel release shackle at boat
- Spectra tow line with tow ball
- Carbon fiber steering handle with Release ball (connects to tow ball)
- 17' Color-coded, foam-encased spectra kite lines sheathed in PVC
- Kite lines connect to kite via carabineers that clip to kite bridles
- Color-coded power settings for greater or less lift

EXTRAS:

- Pump w/PSI gauge
- Full-storage Gear bag with backpack straps and front zipper pouch
- User Manual & Instructional DVD

SUPERFLY 9.0 PACKAGE

TOW LINE COMES WITH ATTACHED RELEASE SHACKLE AND TOW BALL

DESCRIPTION:

- 70' Yellow Jacket Main Line
- Equipped with two foam floats on either end for easy location in the water.
- Use With Superfly 5.5 & Superfly 9.0

TOW LINE

RELEASE SHACKLE

DESCRIPTION:

- Stainless Steel Release Shackle with Pull Lanyard
- Attachment Loop to boat tower or cleat
- Allows boat observer to disconnect entire kite system from boat via Lanyard
- Use With Superfly 5.5 & Superfly 9.0

RELEASE SHACKLE

TOW BALL

DESCRIPTION:

- White Tow Ball with metal eyelet
- Fits on the end of tow line Connects to Carbon Fiber handle via black Release Ball
- Releases automatically from handle when rider lets go
- Use With Superfly 5.5 & Superfly 9.0

TOW BALL

CARBON FIBER HANDLE

DESCRIPTION:

- Carbon Fiber Handle for riding and kite steering
- EVA grip with center reference bump for one-handed riding or tricks
- Black Release Ball at front of handle automatically separates kite from tow-line upon rider letting go
- Kite Line Releases on either side of handle designed to separate when overloaded
- Use With Superfly 5.5 & Superfly 9.0

CARBON FIBER HANDLE

KITE LINES

DESCRIPTION:

- Color-coded, foam-encased spectra kite lines sheathed in PVC
- 13'6" Lines for Superfly 5.5 come with end loops for larks head connection to kite.
- 17' Lines for Superfly 9.0 with attached carabiners to attach to kite bridles

SIZES:

- 13'6" - Use With Superfly 5.5
- 17' - Use With Superfly 9.0

KITE LINES

KITE BRIDLES

DESCRIPTION:

- Color Coded (red for left, green for right)
- Two power setting rings (white for less lift, black for more lift)
- Attached to kite webbing leads via larks head knot
- Use With Superfly 9.0

KITE BRIDALS

HAND INFLATION PUMP

DESCRIPTION:

- Hand pump with inflate and deflate option
- Attached PSI gauge for proper kite inflation (5 psi for both kites)
- Use With Superfly 5.5 & Superfly 9.0

HAND INFLATION PUMP

GEAR BAG

DESCRIPTION:

- Designed for storage of the WakeKite and all its accessories
- Functions as an easy carry backpack
- One main compartment and one front zip pocket
- Bottom mesh screen allows for water drainage
- Use With Superfly 5.5 & Superfly 9.0

GEAR BAG

WAKEKITE T-SHIRT

DESCRIPTION:

- Black cotton t-shirt with WakeKite Logo and wrap around image
